

NAME: T.SANGEETHA MARI

ROLL NO. : 19UITE033

EX NO. 1: Managing Set of Program using make utility

DATE: 02/09/2022

The image shows a terminal window titled "Terminal" with a sidebar on the left containing "Places" (Recent, Home, Desktop, Documents, Downloads, Music, Pictures, Videos, Trash) and "Devices" (Computer). The main area shows a terminal session for a user@vmub-hadoop1. The user navigates to the /sample/makeadd directory and runs the following commands:

```
user@vmub-hadoop1:~$ cd sample/
user@vmub-hadoop1:~/sample$ ls
application.c  Makefile  mymath.c
user@vmub-hadoop1:~/sample$ cd makeadd/
user@vmub-hadoop1:~/sample/makeadd$ ls
application.c  Makefile  mymath.c
user@vmub-hadoop1:~/sample/makeadd$ make
Makefile:2: *** missing separator.  Stop.
user@vmub-hadoop1:~/sample/makeadd$ gcc -c application.c
user@vmub-hadoop1:~/sample/makeadd$ gcc -c mymath.c
user@vmub-hadoop1:~/sample/makeadd$ gcc -o final application.o mymath.o
user@vmub-hadoop1:~/sample/makeadd$ ls
application.c  application.o  final  Makefile  mymath.c  mymath.o
user@vmub-hadoop1:~/sample/makeadd$ ./final
sum of two numbers 50
user@vmub-hadoop1:~/sample/makeadd$ make clear
Makefile:2: *** missing separator.  Stop.
user@vmub-hadoop1:~/sample/makeadd$ rm final
user@vmub-hadoop1:~/sample/makeadd$ ls
application.c  application.o  Makefile  mymath.c  mymath.o
user@vmub-hadoop1:~/sample/makeadd$
```

A yellow status bar at the bottom right of the terminal window indicates "application.c" selected (37 bytes).
